

It is possible.

Cla-Val's new 98 Series Advanced Hydraulic Pressure Management Control valve makes it possible for water companies to:

- Conserve water
- Prevent pipe breaks
- Reduce background leakage
- Optimize system efficiency
- Save energy and lower costs associated with pumping

...while retaining the ability to deliver adequate pressure during periods of extreme demand, such as fire flow

patent pending

*Introducing the all hydraulic
Cla-Val 98 Series
Advanced Pressure
Management Valve*
