

## State Revolving Fund American Iron and Steel (AIS) Compliance

The American Iron and Steel (AIS) provision requires Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF) assistance recipients to use iron and steel products that are produced in the United States. This requirement applies to projects for the construction, alteration, maintenance, or repair of a public water system or treatment works. ([www.epa.gov/cwsrf/state-revolving-fund-american-iron-and-steel-ais-requirement](http://www.epa.gov/cwsrf/state-revolving-fund-american-iron-and-steel-ais-requirement))

With corporate and manufacturing headquarters based in Costa Mesa, California, Cla-Val complies with the American Iron & Steel Act. Cla-Val's onsite foundry pours over 60 different grades of ferrous and non-ferrous materials, enabling us to manufacture what our customers need, when they need it.

**AIS, along with any other regulatory requirements must be specified at the time of order in order to ensure documentation is appropriately captured and maintained throughout the manufacturing process.**
