

# ON-LINE TRAINING

## CVU CLA-VAL UNIVERSITY

### 90 SERIES

#### *Operation, Troubleshooting and Maintenance*

**Course Description:** This webinar will review the operation of our 90 Series Pressure reducing valves. We will discuss each component and optional features of the pilot system and how they effect the operation of the valve. This webinar will also go in depth on troubleshooting our 90 Series and provide a live rebuild of our CRD pilot.

**Open Q and A:** This event will be dynamic and interactive using live survey and audience questions. Attendees will be able to receive **2 Contact Hours**.

**Who should attend:** Developed specifically for Waterworks System Operations, Maintenance personnel and Engineers. CVU is an excellent choice for individuals who are new to the industry or as a refresher on control valve operations. In these sessions we will be reviewing various valve operations, trouble shooting and maintenance of our main valve and control pilots.

*Register by 11/12/2020 in order to receive printed course material prior to webinar date. Electronic literature will be provided after 11/12/2020.*

**Date:** November 19, 2020

**Time:** 8:00 - 10:00am PST

**How to sign up:** [Click here to register](#)

**Cost:** \$50.00  
payments through  **PayPal**

**Event Format:**   
Video Communications

**Presented by**
