

Date: October 16th and 17th 2024 **Time:** 7:30am to 3:00pm Daily

Location: Cla-Val Company, 4687 Christie Drive, Beamsville, Ontario

Course Purpose: Developed specifically for Waterworks System Operations and Maintenance personnel, **CVU-101** is an excellent choice for individuals who are new to the industry or as a refresher course for experienced Operators and Maintenance Personnel. This class focuses on basic valve operation along with hands-on training for various applications. **CVU-201** class was developed to provide hands-on training related to valves that perform more than one function in a single valve and where installation, set-up, and operation require more in-depth technical understanding and direction. We will also cover the operation and maintenance of various pump control valves. **This course qualifies for 12 contact hours.**

Course Outline:

Maintenance, Repair, and Troubleshooting

- 90 Series Pressure Reducing Valves
- 50 Series Pressure Sustaining/Relief Valves
- 136 Series Solenoid Control Valves
- 124 Series Float Control Valves
- 92 Series Pressure Reducing & Pressure Sustaining Valves
- 210 Series Altitude Valves
- Powercheck and Powerrol Main Valves
- 60 Series Pump Control Valves
- 61 Series Pump Control Valves
