CUSTOM SOLUTIONS

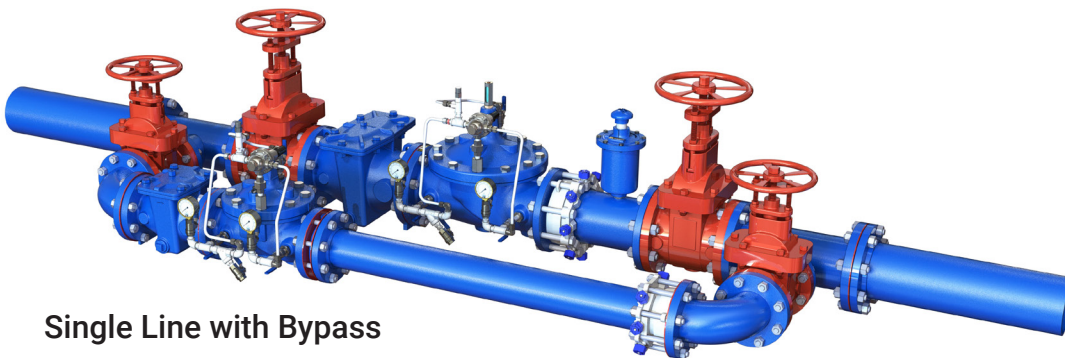

BUILT IN CLIMATE CONTROL

SINGLE SOURCE SUPPLY

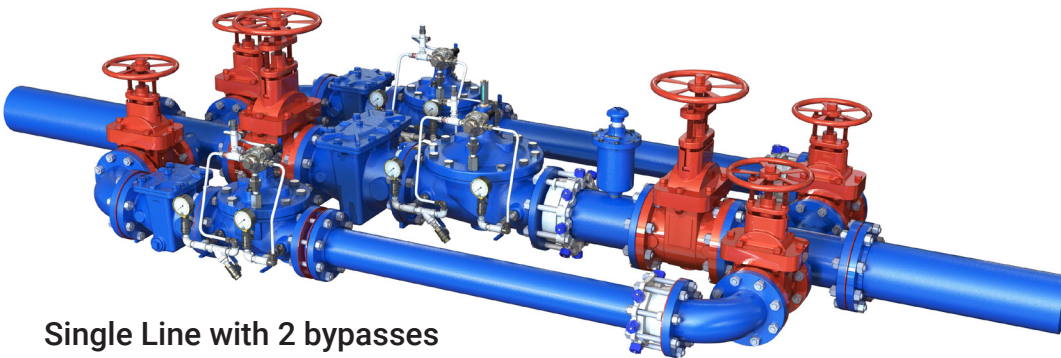

## Typical Valve Station Designs

Single Line

Single Line with Bypass

Single Line with 2 bypasses

## Why use a packaged system?

1. Single source supply guarantees on time build and delivery
2. Built in climate controlled facility – not weather dependent.
3. Capital savings on entire project
4. Minimize traffic disruption – these packages can be installed in a typical work day
5. Customer can totally customize the build and use components of their choice

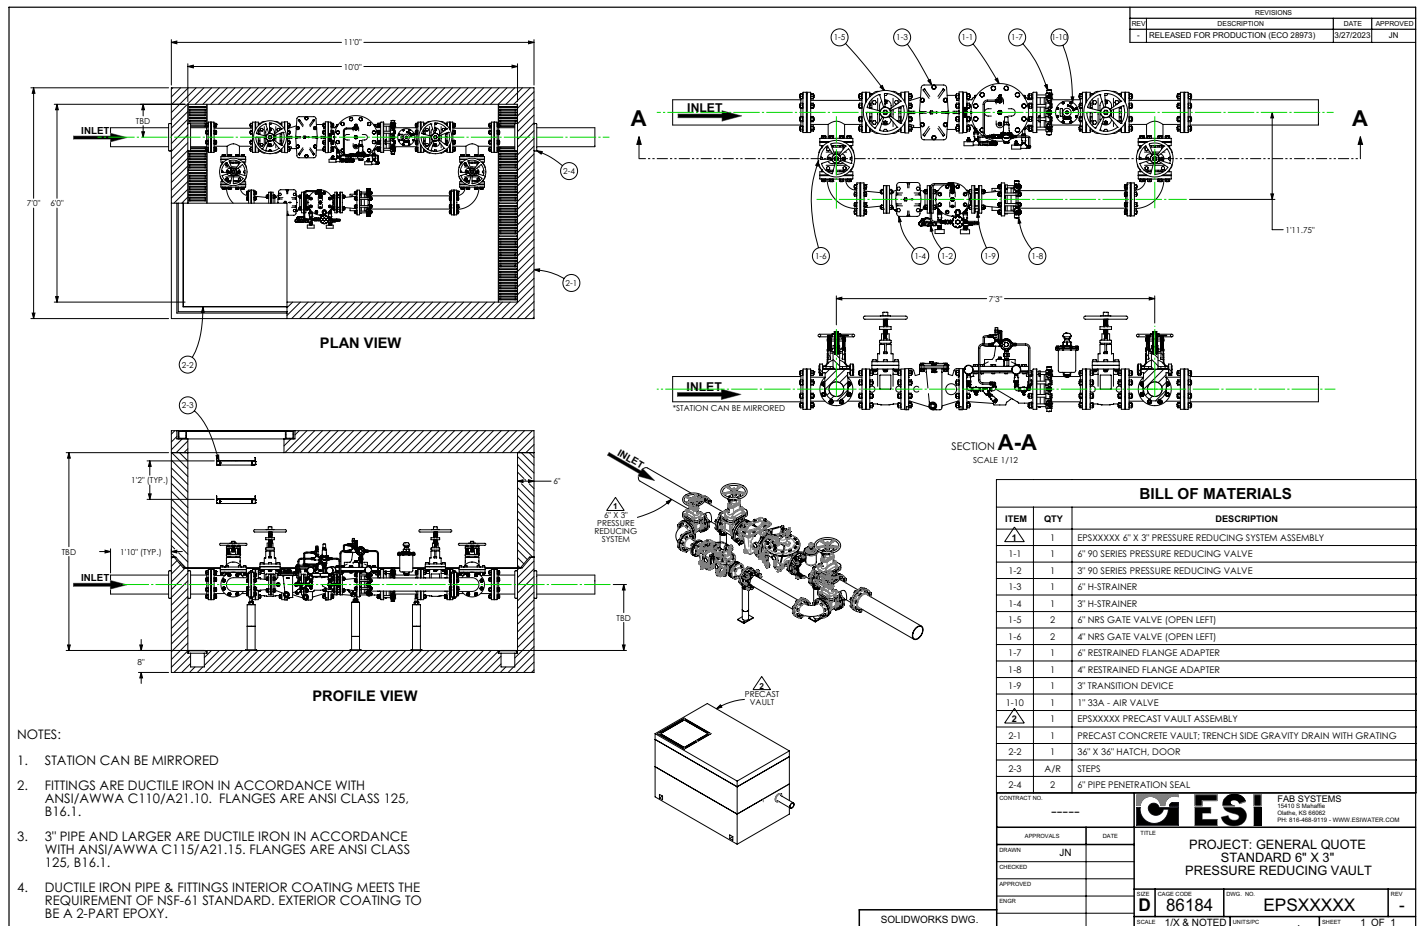

## Standard Features

- Utilizing ductile iron, fabricated steel or stainless steel piping
- Grade B7 steel studs and 2H heavy hex nuts all with blue fluoropolymer
- 150#/300# plain end or grooved connections
- Industry leading manufacturers
- Cla-Val Automatic Control Valves
- Additional valves, fittings, etc. as required
- Custom AutoCAD drawings available
- Custom pipe spools for retrofit or new installation projects
- AIS compliant vaults and piping systems, upon request
- Factory pressure tested

## Typical drawing sample
